Sir:

In conjunction with the filing of the present application, and prior to an initial Official Action on this matter, please amend the above-identified application as provided.

Please note that the following amendments apply to the attached specification and claims labeled for U.S. filing. In this preliminary amendment, please consider the following remarks in conjunction with the amendments to the above-identified application as follows:

REMARKS

The present Preliminary Amendment has been entered for the purpose of placing the application into a more proper U.S. format. In particular, certain grammatical and idiomatic inconsistencies have been corrected by amendment to the specification, and the application is corrected for certain typographical errors found in the originally submitted application. No new

matter has been added by these amendments. The present application incorporates the original filing including any amendments made in the international filing. There was an amendment in the International Application, and there was another amendment in the annex to the International Preliminary Examination Report (IPER). The original claims were amended under Article 19 and later in the annex to the IPER. As such, the present specification and claims submitted for U.S. filing incorporate the most recent set of claims from the annex to the IPER.

The Claims have been amended so as to conform with U.S. requirements and so as to remove multiple dependent claims. The Abstract has been amended so as to conform to U.S. filing requirements.

Applicant respectfully requests that the present Amendment be entered prior to an initial Official Action on the present application.
